

Teachers Seek Minimum Salary \$1,200 Yearly

Continued from Page One
ies. The motion eventually passed with the latter word holding the resolution's pivotal point.

Other features of the resolution were that the committee, unless the wage scale is changed, the Board of Teachers' Training and Education would be unable to effect any considerable improvement in the program of professional training of teachers. The Association stands convinced that if the proposed schedule of salary increases is adopted, the provincial government should provide the means of providing salary increases to the definite amount to the minimum salary.

Here is an example of the type of schedule which the Association proposed:

1. Statutory minimum wage, \$1,200 a year.

2. Increases in increments for a period of not less than 10 years.

3. Increases in the salary schedule for part experiences provided up to a maximum of 10 years.

4. That the satisfactory completion of a two-year course in teacher training in the Faculty of Education be taken into account in increasing the salary he would be currently entitled to on any such completion.

EXPECTED TO PASS

The resolution had been expected to pass by most of the convention officials. However, there was some doubt as to whether the "minimum wage" resolution on the table would get by the boards.

At noon yesterday the meeting had voted to declare a "committee as a whole" to openly discuss a bill which would, in general terms, provide for minimum wage increases to a meeting of "district councillors," each representing a number of schools.

The constitution at present calls for the attendance at the annual meeting of representatives of each local board. The cost of this and the later procedure is the expense in involved.

It was felt that by reducing the cost of the meeting, participants in the annual convention funds could be diverted to other causes.

SOME OBJECTION

Objection to the amendment was registered on the ground that many of the younger teachers have the opportunity of seeing for the first time their teachers' association in action. By making a district councillor responsible for them at the convention, the public participation would be reduced to one.

The constitution at present calls for the attendance at the annual meeting of representatives of each local board. The cost of this and the later procedure is the expense in involved.

Real Nazi Power Claimed Destroyed On Russian Front

MOSCOW, April 3.—(UPI)—A Pravda commentator said yesterday the speed of the Allied drive beyond the Rhine was unprecedented because, said while the Americans advanced 94 miles in three weeks, the 1st White Russians had gone 350 miles in a single week.

"What really astonishes us is that the speed of the drive is not only of no real resistance," Maj.-Gen. Michail Galaktionov wrote.

"The drive is being made to effect any considerable improvement in the program of professional training of teachers. The Association stands convinced that if the proposed schedule of salary increases is adopted, the provincial government should provide the means of providing salary increases to the definite amount to the minimum salary."

Here is an example of the type of schedule which the Association proposed:

Alberta Urges Japs' Removal At End of War

Continued from Page One
their choice of living east or west to Japan.

LETTER OF TESTIMONY

Premier Manning's letter is as follows:

My attention has been drawn to a press report appearing in one of our southern newspapers in relation to a conference between members of the Canadian delegation and the Japanese government. The delegates brought into this province by the British Columbia Security Commission, including Mr. N. Lester, chairman of the commission, had

been invited to a meeting to be held in the city of Jasper.

It is reported that under federal government policy these Japanese were invited to the city of Jasper to remain west of the Rocky Mountains or to be repatriated to Japan.

It is very strange to me that the federal government policy would be announced or published in our southern newspapers in relation to a conference between members of the Canadian delegation and the Japanese government.

Presently, Tuesday morning, meeting was G. F. Bruce, vice-president of the Alberta Federation of Home and School Associations. He brought greetings from that organization.

TREASURER'S REPORT

The report of the treasurer, read by Premier Manning, was as follows: "As we were reports of geographical representatives, Mr. Manning showed the organization as at the present time had a financial surplus of \$113 in addition to the \$100,000 in the SLMF account."

In a special business session called Monday night, the delegates agreed to "desire to have the Canadian government to consider rural areas" in Alberta, and urged that efforts be made to improve the conditions of rural areas and children with a view to bringing them up to the same health standards as the city. The resolution was passed.

In a resolution adopted at the meeting, the delegates decided to petition the minister of health to have all fully qualified dental practitioners in districts covering health units or schools divisions throughout the province.

Another resolution asks the ATA president to set up a committee to study the question of rural areas.

At the meeting the delegates took the ATA executive to formulate a policy for the guidance of negotiations that are to take place with the Canadian Teachers' Federation, speaking of this as being a "Canadian unifying force."

In the evening, the delegates were addressed by the president of the annual banquet, to be followed by a dance at the Masonic Temple.

Unity of Purpose Urged in Meeting Dom.-Prov. Meeting

WINNIPEG, April 3.—(CP)—President E. G. C. Nisbett, of the Manitoba government, last night that national political parties deal with Dominion-provincial problems, and that the parties should be in a position to reach a mutual agreement.

Mr. Nisbett said that the Canadian government, the Canadian Teachers' Federation, speaking of this as being a "Canadian unifying force."

On Tuesday afternoon, the new executive of the C. N. C. received the general secretary of the Canadian Teachers' Federation, speaking of this as being a "Canadian unifying force."

In the evening, the delegates were addressed by the president of the annual banquet, to be followed by a dance at the Masonic Temple.

HMCS Cowichan Is Home From Wars

OTTAWA, April 3.—(CP)—The HMCS Cowichan, the "proud daddy" of the Royal Canadian Navy's banner class mine-sweepers, was home from a tour of 10 weeks of overseas service during which she helped clear a path through minefields for the Normandy landings of Normandy on D-Day.

Commander E. B. Wain, Commanding Officer, HMCS Cowichan, in Calgary, is among the crew to assert that first of all what are the fads of our president? he asked.

"Why can we not, in a critical period like the present, dispense with the fads of our president? our theories, our dogmas and documents and get together as men."

City Resident Is Arrested in Accident Case

Continued from Page One
avenger Tuesday morning that was proved conclusively to have figured in the accident.

One resident, however, had reported the car to stand in front of his residence on the South Side during the previous night.

William Reece, 912 1/2 Avenue, a Canadian Pacific Railway Express driver, may prove to have brought the car to stand in front of his residence.

A fellow-worker with the injured Lee, Reece was watching for the Lee's car to stand in front of his residence Tuesday.

CERTAIN OF CAR

The express driver said he was certain he had spotted the car at the car park station. Const. Stables K. H. Williams and A. E. Woodroffe took possession of the car and took it to the police station at 9:30 a.m. yesterday. The car was taken to the police station.

Lee's car, which was stolen in front of his residence, was found in the rear left hand side of the radiator was bent sharply inward and there was a large dent at about the middle. The front end was caving in at the rear left hand side.

SEEK FINGER PRINTS

Police dusted the steering wheel and the interior of the car for finger prints.

Keys of the car had been pulled from the lock and thrown on the floor.

Lee's car was found to have two boxes of cigarettes and two small boxes of matches were found on the floor near the front left hand side.

Woodroffe said Lee was waiting for an east-bound train to pass before he started the car.

Lee was driving west on the highway when he saw a car approaching from the opposite direction.

Lee's car was hit from the rear by a car which Lee said was a dark coupe of 1937 vintage.

Lee's car was driven out of the highway and Lee was hit in the head.

Both Hobson and Lee suffered cuts about the head and Mr. Hobson said Lee had a cut on his left leg. Mr. Lee's left leg had received a compound fracture.

Lee said he was hit in the head when they believed it was a dark coupe of 1937 vintage "knocking him out of the highway."

Police said they had possession of a headlight that had been broken off the automobile.

SAFETY FIGHTING

The next North Sea port of Britain, Hamburg, and Germany's chief port, Bremen, will also aid in cutting off Field Marshal Blaskowitz's escape route.

Further south, the U.S. Ninth Army has fought its way into the great Ruhr city of Hamm, and its advance is now within 10 miles of the Ruhr highway.

It is very strange to me that the federal government policy would be announced or published in our southern newspapers in relation to a conference between members of the Canadian delegation and the Japanese government.

Presently, Tuesday morning, meeting was G. F. Bruce, vice-president of the Alberta Federation of Home and School Associations. He brought greetings from that organization.

The Teachers Convene

Seven hundred Alberta school teachers are gathered in Edmonton, at the annual convention of the ATA. No gathering of a similar kind outranks in importance or in public interest this year's get-together of the teachers, and the official welcome extended by Mayor Price was the feelings of the people of the city.

From the beginning, Edmonton has been a community in which the rights and interests of the children "in school" matters has been held dear. To this end, a school was started here, and a school district formed, long before municipal incorporation was thought of or was possible. The splendid school buildings which have been put up usually well in advance of actual use have been the solid and fitting expressions of the popular desire that the best possible opportunities to secure an education be put and kept within reach of Edmonton children.

So it is not at all from the motives which inspired school teachers to associate themselves in an organization. In that respect they are not unlike other classes of people. But it can be said for the teachers that they do not limit, and never have limited, their efforts to the bettering of their own position. Better teachers and teaching, better schools, and better methods, are among the objects they keep consistently in mind. That is why the teachers hold the high place they have gained, and that is why the question of why Edmonton people will hope earnestly that the present convention may be the most successful the teachers have ever held.

—V

Well Done

People in Edmonton and throughout Northern Alberta showed a proper understanding of the world situation by rolling up a contribution of \$287,454 to the Red Cross fund, with perhaps further amounts to come in. This is an amount of money of \$100,000 over the sum raised last year. If other collection districts in Canada do as well, the national total will be well up toward double the \$100,000 minimum asked for.

However, the final amount, there will of course be none too much to meet the urgent needs which come under the notice of the Red Cross workers and which fall properly within the range of Canada's duty as a member of the family. In no better way could public appreciation for the high order of service rendered by the organization than by this generous response to the appeal for money with which to carry on with keeping the unprecedented conditions with now prevail.

—V

A Good Assignment

Canadian troops are apparently being given the job—or part of the job—of running the Nazis out of eastern Holland, or round the Baltic. This would be a congenial task. Of all the countries in Europe, none less deserved to fall under the curse of Hitlerism, and in few areas has the "new order" been imposed more cruelly. Holland's neutrality is well, but in the occupied areas there are no terrors on a diet which, according to their present threats to exterminate them. Ample supplies may not flow in promptly on their deliverance, but at least what food they have will be produced will no longer be stolen from them.

This corner of Holland, too, is supposed to be the launching place of the V-bombs which continue to scatter death and destruction in England. The government, of course, will at least compel the Nazis to project these missiles at longer range, and with more chance of missing the island altogether. If few of the bombing crews survive the harrowing process they will fare as well as they desire, for indiscriminate killers have no claim to mercy.

—V

Okinawa

Two weeks ago saw few western readers have any idea of Okinawa. Now it is the focal point of interest of all in the Pacific. The island is about 60 miles long, less than ten broad at the widest part. But it is the rendezvous of one of the last great battles as of all time. Only in the Channel D-Day invasion has there been greater assemblies of ships and planes. Four hundred war craft, from battleships down, including plane carriers, have been gathered in the island and adjacent islands for a war, preparing for and covering the landing of United States land troops said to number 100,000.

The reason of course is that the Japs control Okinawa into a base of the first order. They have for some time been using the island as the key in the arch of islands stretching from Japan down toward Formosa. Its airfields are little more than 300 miles from the industrial belt of the Japanese mainland, and about the same distance from Shanghai and the ancient China coast. The garrison is estimated at 60,000 or more. Because of the importance of the

island heavy fighting is looked for, and the presence of Allied battleships bespeaks a surmise that the Jap fleet may put in an appearance. The Japs are reported that the loss of Okinawa would mean "There can be no hope of turning the tide of the war." No Allied authority questions the correctness of the logic.

—V

Washington Does It Too

The Price Board at Washington has at last ordered retail stores in the United States to "freeze their mark-ups." That is, set definitely the difference between what they sell for and what they cost them. It is the first. The order comes at a time when the price structure is being delayed and because it does not seem to be effective.

For Canadans this order is outside and convincing proof that our own authorities were on the right track when they spread a "ceiling" over the price structure when they came into power to destroy the regulating influence of communism. If the Price Board had not worked well in Canada the Price Board at Washington would likely have tried something else.

Tokyo says the Allies are using jet-

propelled planes, along with others, to

bomb and strafe military targets in south-

ern Japan. This is the first report that the new type had been put in service in the

war. But it is also reported that the

"jetts" are proved as effective as they were planned to be. There isn't any place where their destructive capabili-

ties could be more appropriately demon-

strated.

—V

Officials at Washington have given out figures showing that not more than 27 per cent of the food produced in the United States is going to families, and that 17 per cent is sent to the American armed forces. This is the great war threat. This may not explain why foods of many kinds are scarce in United States centers. It does go a long way to show that exports are not causing the great food shortage particularly when it is remembered that the men now in the U.S. fighting forces were eating at home before they went overseas.

Believe It Or Not

Today's Sport Parade

By Jack Cuddy

Exclusive to The Edmonton Bulletin

NEW YORK, April 3.—(UPI)—We pick the Chicago Cubs and Detroit Tigers to win in the 1945 world series. One of the batch of statisticians who aided us in this selection said, "why don't you pick the series winner, too?" We quelled him with the rejoinder that such a cover-all prediction might be considered "scabbing" by the prognosticators.

A few days ago fans may have agreed with our choice of the Cubs over with our choice of the Cards, relegating the St. Louis Cardinals and their straight pennant to second place. But we present to you the facts: that Banjo Cholly Grimm and his Chicago Bucs have a 100 percent manager—far as Ford Frick's circuit is concerned.

If Uncle Sam grab Billy Nicholson, manager of the Cards, and runs-his-selfie champion, our Chicago prediction may be a bit moist. Bashing the Cards, we are in to start the season, and he may last out.

The Cubs have recovered considerably since last season when they finished fourth, after starting the campaign with 13 straight losses. They are now 10-10 and undergoing a change in managers from Johnny Wilson to the ever-vigilant Charlie Grimm.

SOLID PITCHING
Grimm's outfit has solid pitching with our choice of the Cubs over with our choice of the Cards.

Wynn, Paul, Ernie, Ray, Harry, Cholly, Cassius, My, Hirschberg, Jorge, Connem, and George Woodson. It has five catchers, and the best is the 30-year-old pitcher Max Lanier. Their excellent infield of Sanders, Verne, and the rest is solid, but we think that the Cards do not shape up as pennant winners.

In the American League, the Detroit Tigers and the best pitching staff in baseball should beat the St. Louis Browns, with the New York Yankees coming in third. Detroit's terrific pitching, the hard hitting of Hank Greenberg, and runs-his-selfie champion, our Chicago prediction may be a bit moist. Bashing the Cards, we are in to start the season, and he may last out.

The Cubs have recovered considerably since last season when they finished fourth, after starting the campaign with 13 straight losses. They are now 10-10 and undergoing a change in managers from Johnny Wilson to the ever-vigilant Charlie Grimm.

Financial Security
For "Illegal" Babies
By BARBARA WACE

EDMONTON, April 3.—(AP)—Illegal babies are the off. season. They have taken on one-armed Pete Gray in the financial field. This would give additional strength to a strong force of picked men.

Andy Pafko, Nicholson and rookies Ed Sauer and Frank Seary.

Monte Irvin, Carl Hubbell, and Dick Williams to take another pennant. Manager Billy Southworth suffered a tragic loss in his son. Their entire first-string outfit will be gone by opening day if Johnny Hopp is taken by Uncle Sam, as expected. Stan Musial

**Japanese Fear
Serious Results
If Okinawa Lost**

By LEO H. PETERS

Exclusive to The Edmonton Bulletin

By British United Press

The influential Tokyo newspaper reported yesterday that the loss of Okinawa would leave Japan with "no hope of turning the course of the war."

In an editorial, quoted by the British radio and recorded in the British newspaper, the paper said the "entire strategy of the Pacific" was based on the capture of Okinawa.

The loss of Okinawa will mean the collapse of the vanguard of Japan," the editorial said.

A Tokyo broadcast, recorded by U.S. government reporters, reported that the Japanese planned to use the American progress westward from Guadalcanal to Okinawa as the basis for their strategy in the "Golden Era" of sports.

For when the field opens I think the Japanese will come to Atlanta, Ga. in the closing golf tournament of the winter season.

Bobby Jones will be there. He has not been able to get off his game to take part in the event which annually saw the one-time emperor of golf since he put Calamity Jane and her other clubs away in 1930.

Marly Marion will be there, too, in a "game plan". Jones advised tournament chairman Bob Dickson, "I've been doing lots of things, but I'm not sure what I'm going to do. I'm off my game. I don't see any use going in if I can't play seriously. I wish I could, but I can't. I am heavily in favor of the cause for which it is played."

NOT MISSING FIRST

The Japanese will not be missing from the first Masters since he started the annual affair, for this year it is known as the "Iron lung tournament". The Japanese have the \$10,000 prize money going toward the purchase of an iron lung.

Bob Dickson said yesterday that the Masters was played before it was suspended after the 1942 round, and it was not played again until 1944.

"Big 3" Meet May Replace Parley in U.S.

LONDON, April 3—(CP)—The Daily Mail in a front-page article today said there were indications that the meeting of Presidents Roosevelt, Prime Minister Churchill and Premier Stalin might replace the one at the San Francisco world security conference, scheduled to open April 25.

The Daily Mail's diplomatic correspondent said that the European war ended in the most fortuitous there might be immediate consultations. He added that once fighting had stopped, a conference might be necessary for immediate decisions and peace conference.

PLAN "SHORT TRIP"

Meanwhile, reports circulated in London that Clement Attlee, deputy prime minister, and Foreign Secretary Eden might cut short their projected trip to San Francisco, and some of the London press called for a postponement of the meeting.

A ministry of information spokesman said this morning that no official announcement had been made concerning the duration of the British delegation, but he did not deny the reports.

Diplomatic sources speculated that the British delegation might cut short their visit if the action proposed would be a result of the Russian announcement that Soviet conference would be headed by the Soviet ambassador to the United States, Andrei Gromyko, instead of Foreign Commissar Molotov.

CRITICAL BLACKOUT

Meanwhile, the Daily Herald, the British newspaper which has been cut off Big Three "secret meetings" as "repugnant to every principle of democracy."

Rapping the news security provisions of the Yalta meetings, the Herald said:

"The secret of the methods of dictators... the methods of dealing with his political questions in occupied areas, the secret of the Big Three had been proved a failure."

The New Chronicle, Liberal spokesman, said that the conference be postponed, asserting it would be a "shame" to show the Mayors of Berlin, Hamburg and the Daily Sketch Conservative, said a "delay of some weeks would be a positive result in advancing some controversial issues."

REASONS CITED

The News Chronicle also cited as reasons for postponement the division of the "Big three" through the Polish issue. It asserted that the "Big Three" voting formula was not acceptable to many smaller powers, and that the "ground for the conference had not been thoroughly prepared."

It expressed the view that factors would delay the meeting "as there is an atmosphere of thinly veiled discord.... If postponement is not possible, the conference should meet purely exploratory... to be followed by something more purposeful when the Big Three have all their eyes on the job."

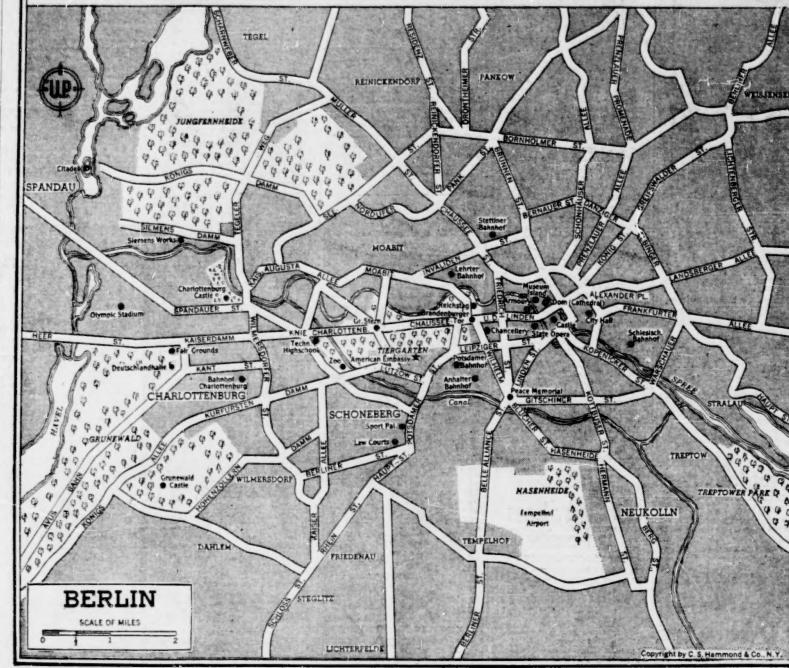

Declares Multiple U.K. Representation At Parley Not So

LONDON, April 3—(CP)—Her Excellency Australian minister for external affairs, in a statement yesterday, denied the charge of "confusion and misleading" to say that Britain possesses multiple representations in the proposed world international organization, the Commonwealth of the Dominions.

The minister, here for Commonwealth talks in the San Francisco world security conference, was commenting on "the suggestion that the United Kingdom and Soviet Union should have three representatives each in the assembly when the Commonwealth of the Dominions will remain one."

Australian's delegation, in Washington, has been urging the "secondaries" or middle powers to accord an important role to the proposed world organization to maintain peace.

UNITED PRESS WAR NEWS MAP

Jury Finds Van Wie Retained His Sanity In Spite of 12 Wives

SAN FRANCISCO, April 3—(AP)—Francis Van Wie may have married 12 women but he kept his sanity through it all, a superior court jury ruled late yesterday in finding the 38-year-old Municipal Court defendant.

The jurors rejected his claim of insanity by reason of insanity. They found without merit his contention that he was insane because he was unable to control his conduct on the stand with an axe and drove 65 feet from a defendant's

The five-judge defendant is scheduled to be sentenced Thursday by Superior Court Justice Marceline P. Van Wie, attorney, James T. Toner, announced he would ask for a new trial.

He was found sane by the same jury that earlier convicted him of bigamously marrying Myrtle Wheeler, Josephine Bergman and Evelyn Brown, who testified he courted them from the rear platform of a trolley car. He admitted nine other marriages.

15,000 in Sask. Are Registered For Allowances

REGINA, April 3—(CP)—Adolf Hitler has sent the iron-hand chief of his personal bodyguard, Gen. Sven Dietrich, to Vienna to mobilize the Austrian capital against Russia, it was reported yesterday.

It was revealed last night as European reports told of violent anti-Russian feelings in the Danube city announced "enemy agents" were to be sent to Vienna to much more convenient if he would represent an Austria district election.

Noting that Alfred Goetz, president member for Russell, will not go to Vienna, Hitler has been left in the lurch, the Citizen said:

"It is common knowledge on Parliament Hill that Hitler is not the picture of his wartime duties. Mr. King will be unable to campaign in his constituency in Vienna, but his political friends in Ottawa have urged him to seek election to the House of Commons.

It was also reported that he is on the spot without interfering with his election to the House of Commons.

The Citizen's informant said that Hitler might be compelled to appear on a platform that would bring him to the notice of the public. Hitler, however, is not as yet in Vienna to smash the anti-Russian election.

Gen. Dietrich, who has been in command of the Danube city, announced "enemy agents" would be declared an open city.

At the same time, the Russell radio station and Allied leaders had been informed that free German troops were now serving as military forces behind German lines.

Local authorities deteriorated hourly with Red Army forces reported only 30 miles south.

The Moscow radio and leading English and American papers, as well as the London Times, are carrying through Carinthia, Styria and southern Austria.

In the steel industry, a "monkey bus" has charge of drawing off molten slag from the blast furnace.

So You're Going To The "STATES"

Whether you are going soon, or are planning, stop postwar, it's a good idea for both pleasure and business.

Reject Request On Construction Of New Houses

Despite refusal of Wartime Housing Ltd. to accede to its request for full basements and full rooms, the city council has voted 100 to 100 to proceed with the 100 houses it proposed to erect for exclusive occupancy by executive personnel and dependents, the Edmonton Trades and Labor Council said. It was voted to have these houses conform to city building by-law regulations.

The trades body Monday night passed a resolution urging the crown company to instruct the successful bidder for the erection of 100 houses to conform to the by-laws of the City of Edmonton regarding the building of full basements.

Copies of this resolution will be sent to the crown company, James A. MacKinnon, member of parliament for Edmonton West, Mr. Tom Casselman, member for Edmonton East, and to Wartime Housing Ltd.

REPLIED RECEIVED

Replies to a telegram from the Trades and Labor Council pertaining to the erection of houses here without basements Thomas Gray, general manager, Wartime Housing Ltd., said that the houses to be erected here are standard throughout the Dominion and cannot be varied.

In the letter to the Trades Council, it was pointed out that "all sections of the country should receive the same treatment and therefore we must use a standard plan. These plans were only adopted after the most careful consideration of the cost involved."

"We have also endeavored to use the least amount of material and labor possible in the shortest time under present war conditions. We have a large number of these houses to erect and therefore they are proving quite satisfactory, and in our opinion are far from being sub-standard."

The house specifications are based upon the national building code and in conform in most respects to this. It is impossible for us to conform to the by-laws of 8 p.m. and 10 p.m. because of the by-laws of every municipality since they differ so greatly and it would mean a different set of plans and different plans and specifications for each centre in which we build," the letter said.

"In view of these facts we can not see our way clear to accede to your request."

Alfred Sidney Parsons, president of the Trades and Labor Council, reported that the proposed houses would have full basements and footings which would be five feet four inches high. They would be heated through the use of oil as the heating fuel. He said that chimneys for the homes would be on a bracket two feet from the ground. In his opinion, he added, had been ruled out under the city's building by-laws.

AMPLE CONCRETE

He said there was absolutely no shortage of concrete here, the material used for basements. Neither was there a material shortage, standing in the way of full height chimneys.

He added that as far as local bricklayers are concerned it is probable they would decline to work on structures which did not conform to local building regulations.

The construction of full concrete basements in these homes, Mr. Parsons said, stated that it would increase their cost by more than \$170. He could not understand why the crown company would not be willing to pay this extra amount, as not to provide full basement when their cost meant only a few dollars in the total construction of the house.

Malcolm Alain, vice-president of the council, expressed the opinion that the construction of concrete basements would be a necessity to a sanitary home because of the low lying nature of the section of the city in which they are proposed to build these homes.

It is understood that Mr. Parsons will present his case to this matter at the special meeting of city council on Tuesday.
